Can telecommunication equipment survive in an outdoor enclosure?

To survive in an outdoor enclosure, your telecommunication equipment needs to have climate control. So whether you are keeping the electronic system and its components cool in the summer or warm in the winter, outfitting your electrical box with the proper heating and cooling features will protect your investment.

What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Does e-Abel offer a custom outdoor telecom enclosure?

E-Abel offers custom outdoor telecom enclosures with NEMA standard, protecting cables and components from rain, shock hazard and heat.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.
