What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

What is a weatherproof outdoor enclosure?

Each weatherproof outdoor enclosure is rated NEMA Type 3, 4, 5, or 6 and undergoes rigorous field testing to ensure reliability in demanding outdoor environments. Whether facing desert heat, arctic cold, coastal humidity, or industrial dust, these telecom boxes maintain their protective integrity.

With diverse landscapes that cover mountains, forests, and the shore, you can find an outdoor activity in any season that fits the bill for your family.

Frigate's EMI-shielded, thermally optimized enclosures support mission-critical telecom systems. Frigate uses FEA, high-strength alloys, and precision welding to ensure enclosures withstand vibration, ...

Learn how to match rugged connector interfaces with weatherproof outdoor enclosures for telecom and edge data centers. Ensure network reliability, uptime, and serviceability in harsh ...

Charles Universal Broadband Enclosures (CUBE) are constructed to withstand the elements and provide superior protection for active electronics in all environments.

Our top-grade enclosures provide safe and secure environments for critical electronic and communication components. Whether you need to house servers, switches, or routers, our telecom ...
