Which solar company is best for a photovoltaic project?

Among them: Canadian Solar: With a production capacity of 61,000 MW, this brand is synonymous with quality, innovation, and reliability in the solar industry. Jinko Solar: The absolute leader in the list, with 120,000 MW of capacity, making it one of the most solid choices for any photovoltaic project.

How many new build photovoltaic deals have been closed?

BloombergNEF therefore bases its criteria in what deals have been closed in the past, as tracked by our database -- 39,000 new build photovoltaic financings worldwide as of November 2022. We only tier manufacturers which actually own production facilities and sell under their own brands.

Do banks disclose whitelists of acceptable photovoltaic products?

Banks, and their technical due diligence providers, are extremely unwilling to disclose their whitelists of acceptable products. BloombergNEF therefore bases its criteria in what deals have been closed in the past, as tracked by our database -- 39,000 new build photovoltaic financings worldwide as of November 2022.
