Can a contractor recommend a PV system size?

After the contract award, the Contractor can recommend PV system sizes at their discretion, as long as the total aggregated PV system size is within plus/minus 10% of the original estimate. Certain buildings can be added or subtracted, subject to Governmental approval.

How big should a PV system be?

The Government estimates the total PV system to be X kW, and will only accept a proposal that is no less than 10% smaller than the estimates. After the contract award, the Contractor can recommend PV system sizes at their discretion, as long as the total aggregated PV system size is within plus/minus 10% of the original estimate.

When should a PV system be tested and accepted?

The PV systems shall be tested and accepted as they are completed. The Contractor shall notify the Government not less than five (5) Business Days prior to the anticipated date of each PV System Acceptance Testing.

What types of electrical plans are included in a PV system?

Electrical Plans, including single-line electrical diagrams showing utility interconnection and all devices comprising the PV system, including, but not limited to: PV arrays, combiner boxes, circuit breakers, disconnect switches, inverters, meters, timers, control devices, and other equipment comprising the complete system.

The document outlines an evaluation matrix for proposals submitted in response to a solar RFP. It provides scoring criteria across five categories: proposer qualifications and experience; technical ...

In addition it has created a concept template of the Procurement Requirements and Award Criteria for PV projects. The guide provides public and private buyers with an overview of all ...

The purpose of this RFP template is to provide guidance for the procurement of solar PV (solar). This template contains information on project background, scope of work, proposal requirements, ...

After reviewing this material, reviewers evaluate and score each proposal using the RFP Score Sheet template, evaluating relative merits using the total possible points for each section listed in the ...

Photovoltaic bracket bidding scoring criteria
