Specializing in crystals, substrates, and lab machinery, MTI is dedicated to advancing materials research worldwide.

About this item Stackable stand saves 60% storage space Cleanroom ready: No degassing, no particles, zero pollution cleaning standards.

Check out our silicon wafer display selection for the very best in unique or custom, handmade pieces from our decorating supplies shops.

Introducing the MY0224 Wafer Display Stand - a premium, space-saving solution engineered for showcasing compact discs, photovoltaic cells, and semiconductor wafers with precision and elegance.

This article provides a detailed introduction to the digital silicon wafer display stand, including its brand, material, style, function and other parameters, and shares the use experience, ...

Constructed from acrylic material, it combines optical-grade clarity with anti-static protection, ensuring comprehensive safety and integrity throughout the entire wafer lifecycle--from ...

This angled acrylic display stand is designed for showcasing silicon wafers, chip samples, square substrates, and CD-style flat discs. Its clear structure enhances visibility while ...

Wafer Process Systems Inc. is leading supplier of holders to the semiconductor, MEMS, photonics, solar cell, RFID, disc drive and flat panel display manufacturing industries since 1983.
