What is Apollo Sunguard shade cloth ®?

Our Apollo Sunguard Shade Cloth® mimics the natural shade of trees, resulting in a temperature drop of up to 20 degrees underneath. Our outdoor shade structures block up to 96 percent of the sun's UV rays -- making our shade structures the perfect addition to any sports venue.

What is a Shadovoltaic Solar System?

Shadovoltaic is a fixed or controllable external glazed solar shading system that may be installed either vertically or horizontally in front of the facade. Photovoltaic cells are integrated into the glass so as to generate electricity.

What are americlad® cantilevered sunshade systems?

Americlad® Cantilevered Sunshade systems are some of the most traditional sunshade systems available. The sunshade extends adjacent from the building structure, effectively shading the interior of the building. It also assists in reducing or limiting solar heat gain and sun glare.

What are insolroll solar shades?

Not the View. Insolroll Solar Shades control sun beautifully with no closed-in feeling. Go ahead. Be free. Solar, Blackout, Dual, Decorative and Exterior Shades with commercial grade fabric, hardware, and operators. Solutions for every industry, use, and application.
