RockBridge Energy is a leading provider of end-to-end solar energy solutions.

Solar energy seems like the least controversial renewable energy source, but government hearings for proposed solar projects in Rockbridge County haven't been sunny.

The next utility-scale solar project proposed for Rockbridge County would go on 35 acres of a farm between the Interstate 64/U.S. 11 and I-81/I-64 interchanges, east of U.S. 11.

This article provides an in-depth look at the developments surrounding this solar project, examining its implications for the community and addressing both support and opposition expressed ...

See how Rockbridge Energy compares to other solar installers within your state.
