For customers who qualify for the Solar Battery Savings program, Community Power will offer upfront rebates on the installation of rooftop solar systems that are paired with battery storage.

Specifically, the program provides upfront rebates on panels as well as incentives for residential customers who install new solar-plus-storage systems or add batteries to their existing ...

San Diego Community Power customers can save up to \$10,000 through upfront rebates on qualifying systems, plus performance incentives when their battery dispatches during the evening ...

This incentive is aimed at reducing the upfront costs associated with purchasing and installing a battery storage system, making it financially feasible for more people to switch to solar ...

Discover how San Diego homeowners can save thousands with SDCP's new solar + battery storage incentive. Learn how Asgard Energy can help you qualify today.

Solar Battery Savings is helping our customers access the benefits of battery storage, while supporting the energy grid and local contractors. See what the community has to say about this program.

Yes! If you are an existing solar (NEM) customer and interested in expanding your system and adding battery storage you are eligible for the upfront and performance incentives.

The program provides two financial incentives for participating customers: an upfront incentive (in the form of a rebate) to minimize the initial cost of the battery system and a performance incentive for a ...
