The project brings together the governments of Ethiopia (through the Ministry of Water and Energy) and China (through the Ministry of Commerce of China, MOFCOM) in partnership with ...

Meta Description: Explore how energy storage batteries in Ethiopia are transforming renewable energy adoption, supporting off-grid communities, and driving industrial growth. Learn about market trends, ...

We're excited to share the release of our project video from our installation for the Wogagen School in Debre Birhan, Ethiopia!

Together with the students from our training courses and the local Sahay-Solar team, we managed to install self-sufficient (off-grid) solar systems for light and basic power supply in a total of 8 primary ...

Learn how Sol-Ark supports Wogagen School, Ethiopia's first K-12 STEM academy, with off-grid solar power to transform education and community access.

Last February, Alianza Shire and UNHCR Ethiopia inaugurated an isolated power energy system for two primary schools in the Kobe refugee camp in Dollo Ado, Ethiopia. The project will ...

A new range of energy storage systems based on flywheels was introduced by Ethiocold. Fast response times, high power densities, and a lengthy lifespan are just a few benefits of the new line.

Nearly 85% of Ethiopia's urban population has access to public electricity, but this figure is only 29% for the rural population. This study examines the feasibility of using combined...
