The cabinet is designed for wide-temperature range operations (-20°C to +60°C), with built-in thermal management, anti-corrosion materials, and high-altitude suitability.

It adopts intelligent temperature control and modular structure, supports flexible expansion and remote monitoring, integrates multiple safety protections, and can be efficiently used in scenarios such as ...

The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.

In an era where renewable energy integration faces harsh environmental challenges, the PSO Outdoor Integrated Cabinet emerges as a game-changing solution for solar and battery storage deployments.

Featuring an IP55/IP65-rated enclosure, it offers excellent resistance to water, dust, and corrosion, making it ideal for solar energy, wind-solar hybrid, off-grid, and industrial backup power systems.

WONVOLT Holdings limited was founded in 2016, with two factories located in Hefei, China. We have been specializing in ICES (Industrial and Commercial Energy Storage System) solutions for over 9 ...

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO4 batteries with high thermal stability, extensive cycle ...
