Features C4M anti-corrosion and IP54 protection, a split design compatible with lithium and lead-acid batteries, seamless BMS communication, optional air-cooled/liquid-cooled battery systems ...

EK conducted a comprehensive and multi-level test on the 372kWh liquid-cooled smart outdoor cabinet, mainly including mechanical safety, electrical safety, functional safety and other tests.

Space-saving: using door-mounted embedded integrated air conditioners can save space in the cabinet by not occupying any space, improving the available space, enhancing the top structural integrity, ...

Solar Module systems combined with advanced energy storage provide reliable, uninterrupted power for off-grid telecom cabinets. Continuous power availability ensures network ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

The IP54 waterproof shell makes it perfect to adapt to a variety of indoor or outdoor industrial and commercial application scenarios, such as photovoltaic charging stations, industrial parks, farms, etc.

Whether used as an energy storage battery cabinet, solar battery enclosure cabinets, or a battery enclosure for solar system, HuiJue ensures continuous power delivery, optimal safety, and long-term ...

These cabinets are ideal for outdoor base stations in remote, mountainous, or desert regions, especially where grid power is absent, unstable, or costly. They are also used for border security, relay towers, ...
