We are a professional manufacturer of integrated solar container systems. SolaraBox solar containers enable customers to achieve greater energy independence and reduce carbon emissions.

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.

The Mobil-Grid [®] is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

By combining photovoltaic power generation, energy storage, and intelligent control within a modular container platform, these systems support coordinated development across energy, buildings, and ...

Leading manufacturer of solar containers in Shanghai, China. Complete solutions for residential, commercial, and industrial applications with comprehensive component selection and ROI analysis.
