LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

A mobile solar container is a factory-built, transportable unit that integrates solar panels, battery storage, and power controls--providing plug-and-play, rapid-deploy clean electricity for remote sites, events, ...

EcoDirect offers battery boxes, racks and enclosures for off-grid energy storage applications in solar PV systems. These products support the most common battery types.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

These containers can house batteries for storing excess energy generated from renewable sources such as solar or wind power. They provide a scalable and modular solution for grid stabilization and peak ...

Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators--engineered for the places where conventional infrastructure can't reach, and built for ...

BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.
