What is a solarfold container?

The solarfold Container is an immaculately-detailed and sophisticated plug & play system for a wide range of applications. The mobile drive system consists of a flexible drive unit mounted on traverses and can also be used for other solarfold PV power plants.

How does solarfold work?

Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems.

What is a solarfold on-grid container?

The solarfold on-grid container can also be expanded with various storage solutions. Each package contains a different number of Solarfold containers and the appropriate battery capacity. These combinations are not only used to optimize personal consumption, but can also be particularly valuable for energy trading on the control energy market.

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

Explore our range of high-efficiency solar container solutions designed for businesses worldwide. Our containers combine cutting-edge technology with durability and ease of deployment.

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

OEM & wholesale inflatable solar camping tents with custom solar roof panels and folding tables. Perfect for distributors in Australia, New Zealand, Poland, and Europe.

Standardized sizes and flexible interior layouts make it easy to transport different module types - perfect for manufacturers, sellers and your solar project across Europe. Discover high-quality container ...

Our offer includes several types of solar containers adapted to the various needs of our Customers.
