How much does a solar water heater cost?

Solar water heaters use energy from the sun to heat water stored in a tank, either directly or through a heat-transfer fluid. Costs range from \$3,000 to \$9,000 depending on the size of the system, collector type, and installation needs.

How much does a solar air heater cost?

They're best suited for homeowners in sunny climates who use their pool regularly. Solar air heaters pull in outdoor or indoor air, pass it through a sun-warmed collector, and release it into the home as heated air. These systems cost between \$400 and \$3,000 depending on size and whether they're installed for a single room or whole-home use.

How much does a solar pool heater cost?

Solar pool heaters circulate pool water through solar collectors, where it's warmed by the sun before returning to the pool. Installation typically costs between \$2,500 and \$7,000, depending on pool size, panel type, and whether the system is roof- or ground-mounted.
