Before the introduction of solar energy into the office's power supply in Mauritania, high electricity costs were a major challenge. With the new solar systems in Nouakchott and in ...

As a leading solar installation company in Mauritania, we specialize in designing and implementing customized solar projects for residential, commercial, and industrial clients.

The project will provide rural electrification for 40 localities in south-eastern Mauritania, through the installation of hybrid mini photovoltaic power plants and the construction of connecting lines.

This article explores how integrated solar-storage systems address energy challenges while revealing key market trends and operational insights for businesses and policymakers.

President von der Leyen has announced new commitments to reinforce the EU-Mauritania partnership under Global Gateway and in the fields of migration and security.

The project will provide rural electrification for 40 localities in south-eastern Mauritania, through the installation of hybrid mini photovoltaic power plants and the construction of connecting lines.

The project includes a 160 MW photovoltaic solar plant in Nouakchott, a 60 MW wind farm in Boulenouar, and a 370 MWh battery storage system to ensure grid stability.

Featuring an impressive 160 megawatts (MW) of solar power, 60 MW of wind energy, and a robust 370 megawatt-hours (MWh) battery storage, this project is not just a power plant; it's a ...
