Pilkington Insulight(TM) Sun is the brand name for solar control insulating glass units made by NSG Group processing sites. The main purpose of this IGU is solar control, but other extra functions can also be ...

HISG (Heat Insulation Solar Glass) features a hollow interlayer design that effectively blocks the conduction of hot and cold air, significantly reducing air conditioning energy consumption.

The NovaSUN product line is specially designed for optimal insulation while filtering solar heat gain. The diversity of its products allows you to customize each application and personalize each face of the ...

With its ability to block 60% of solar energy while allowing 70% of visible light to pass through, Solarban®; 60 glass can help you provide year-round comfort with heating and cooling cost savings.

Let the light in with Mitrex Solar Glass -- a powerhouse in disguise, where photovoltaics meet limitless design, where color meets clarity. You're not just choosing glass; you're choosing a future where ...

SN 68 offers high light transmission and solar protection, helping to reduce lighting, cooling, and heating needs.

In this work, the resistance-capacity (RC) model of the semi-transparent photovoltaic insulating glass unit (STPV-IGU) is established. Three hypotheses of solar radiation absorption are ...

Solar control is typically used in a double or triple insulating glass unit (IGU), which allows the energy efficiency of the windows to be further improved and helping to make building occupants feel more ...
