The Moroccan Agency for Sustainable Energy (MASEN) has announced a major expansion of its world-renowned Noor Ouarzazate solar complex, adding a new 500-megawatt (MW) phase ...

Morocco is not just deploying solar panels--it's pushing the technological envelope. In 2023, MASEN launched a pilot project integrating advanced lithium-ion battery storage with the Noor ...

Morocco is moving to expand solar power beyond utility-scale projects. The government, in partnership with Switzerland, has authorised the Solar Rooftop 500 (SR500) initiative, which ...

In 2025, Morocco stands as a global beacon of renewable energy, particularly through its ambitious solar energy projects. From the sprawling Noor Solar Complex to innovative floating solar ...

A new report by SolarPower Europe, backed by the Global Solar Council and Morocco's Cluster EnR, lays out bold projections for Morocco's solar energy capacity.

Solar power in Morocco is enabled by the country having very high rates of solar insolation -- about 3,000 hours per year of sunshine, which rises to 3,600 hours in the desert. Morocco has launched ...

Morocco has reinforced its regional leadership in the solar energy sector, with sharply rising local production and a leading position in African imports. This is Driven by an ambitious ...

Morocco could install up to 28.6 GW of distributed solar, producing 66.8 TWh of electricity and creating a \$31 billion market, according to new research that calls for rapid regulatory action...
