While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading...

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll ...

Scammers across the U.S. are going door-to-door, pitching "free" solar energy systems. Many homeowners never get any solar equipment installed; those who do often get shoddy work. ...

There are two main types of solar energy technologies--photovoltaics (PV) and concentrating solar-thermal power (CSP). On this page you'll find resources to learn what ...

F&#229; oversikt over leverand&#248;rer av solceller. Sammelign tilbud p&#229; solcelleanlegg, og velg den beste avtalen via anbudstjenesten p&#229; Solceller.no.

If you're getting solar panels for your home, it's important to understand the equipment and process in order to make educated decisions.

Everything you need to know to avoid a solar panel scam and what to do if you feel you've been a victim of predatory solar companies.

Solar energy is radiant energy from the sun--a fully renewable energy resource. We use the solar resource to provide daylight, electricity, and heat in four ways (in order of prevalence):
