No information about the cost to remove or transfer solar panels, which could lead you to believe you have future options that might not be available or affordable

Everything you need to know to avoid a solar panel scam and what to do if you feel you've been a victim of predatory solar companies.

Scammers across the U.S. are going door-to-door, pitching "free" solar energy systems. Many homeowners never get any solar equipment installed; those who do often get shoddy work.

If you suspect you've fallen victim to a solar panel scam, report it to the Federal Trade Commission (FTC) and your state's consumer protection agency. You should also file a complaint ...

Have you seen misleading online solar ads or been approached by an aggressive door-to-door salesperson?

If your solar installation is not properly permitted, you may face fines, penalties, ...

As solar energy becomes more popular, so do scams targeting homeowners. Fraudulent callers often impersonate government agencies or utility companies, offering "free" solar panel ...

If your solar installation is not properly permitted, you may face fines, penalties, or even forced system removal. These legal battles can be time-consuming, costly, and highly stressful, making your solar ...
