What is the best solar power generator for camping?

Say you need a solar power generator for a few days of camping, over the course of which you're hoping to power a few small devices, a string of lights, and maybe even a small electric cooler--the Anker Solix C800 Plus is the perfect little unit. About the size of a shoebox and just 24 pounds, it's as portable and compact as can be.

What is a solar powered generator & how does it work?

Thanks to a solar-powered generator's portability, it is a great option for powering devices like phones, handheld GPS and more while on camping trips or road trips. To generate and store solar power, you need two components: solar panels to capture the energy and a battery to store it.

Do you need a solar whole-house generator?

Most solar generators can keep portable electronics, smartphones, tablets, power tools, small appliances, and cordless tools powered up for hours. However, to power larger loads like a refrigerator plus an air conditioner all day, you'll likely need a higher-capacity solar whole-house generator.

Which solar generator should I buy?

If you need a larger, potentially expandable solar generator that offers a good dose of portability, it can't be beat. The Anker Power Station 767 solar generator's high capacity and fast charging make this long-lasting battery a solid everyday driver.

From our standpoint, the right solar generator should give steady power, quick charging, and dependable performance when you need it most. During testing, a few models clearly fit different ...
