What is the voltage in Suriname?

The voltage in Suriname is 110 volts and the frequency is 60 Hz. Dangerous situation: a type B plug is still connected to the mains, even when it's pulled halfway out! Although Suriname has standardized on the American plug and socket system, some hotels offer European-style type C and F sockets, along with a 230-volt (60 Hz) supply for tourists.

Does Suriname have a plug & socket system?

Although Suriname has standardized on the American plug and socket system, some hotels offer European-style type C and F sockets, along with a 230-volt (60 Hz) supply for tourists. There are two types of domestic wall outlets in use in Suriname: the ungrounded type A (NEMA 1-15) and the grounded type B (NEMA 5-15).

What do Suriname electrical outlets look like?

When you are going on a trip to Suriname, be sure to pack the appropriate travel plug adapter that fits the local sockets. But what do those electrical outlets look like? In Suriname, types A & B are the official standard. All of North and Central America, including the Caribbean, use U.S. style plugs and outlets.

How many types of wall outlets are there in Suriname?

There are two types of domestic wall outlets in use in Suriname: the ungrounded type A (NEMA 1-15) and the grounded type B (NEMA 5-15). The ungrounded type A plug has two flat parallel prongs. They are 1.5 mm thick, measuring 15.9 - 18.3 mm in length and spaced 12.7 mm apart.

Summary: Explore how outdoor energy storage systems are transforming Suriname's mining, tourism, and agricultural sectors. Learn about solar-hybrid solutions, cost-saving strategies, and real-world ...

Built at the Marseille-Fos Port, the marine geothermal power station Thassalia is the first in France, and even in Europe, to use the sea's thermal energy to supply linked buildings with power for heating and ...

This guide reveals where to find specialized stores, what to prioritize, and how renewable energy trends are reshaping Suriname's power supply market. Discover practical insights for homeowners, ...

We specialize in providing generators within 24 hours after utility outages, fires, and floods. Our comprehensive site assessments and flexible generator leasing ensure seamless power solutions.
