From Blackout Blues to Energy Independence Let's cut to the chase - a 100kWh battery storage isn't just a fancy power bank. It's like having your personal electricity warehouse.

We produce an innovative, cost-effective battery designed for extended energy storage, making it ideal for large-scale stationary storage solutions and seamless integration with renewable ...

With its hydroelectric power plants in the Alps and innovative projects, Switzerland is contributing to the search for solutions for the efficient, long-term storage of electricity.

As businesses seek cost-effective, sustainable, and efficient energy solutions, TLS Energy introduces its 100kW/233kWh all-in-one energy storage cabinet --an innovative system ...

The 100kWh energy storage system is engineered for industrial, commercial, and large residential applications requiring reliable, high-capacity power. Its modular design allows for easy ...

That's your 100kWh energy storage cabinet - the Swiss Army knife of modern power management. These systems typically combine lithium-ion batteries (the same tech in your ...

Integrating electricity and heat storage into a storage solution increases the reliability of the energy supply. Storage systems also play a key role in decarbonising Switzerland's energy supply.

Headquartered in Switzerland, we deliver scalable, site-ready solutions that integrate battery technology, power conversion and intelligent energy management into one reliable system.
