That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice. Here's how to dodge solar panel scams and identify red flags.

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading claim.

The big lie: The total cost of the project will be covered by tax credits and rebates, and you need to act now. "This is just the latest version of home contractor fraud, but a much more ...

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to ...

How the scam works: People posing as solar installers or utility employees call or come to your home and offer free solar panels through made-up government programs or incentives. ...
