Its modular cabinet--IP54-rated and optimized for heat dissipation with liquid and air cooling--ensures consistent performance in a wide temperature range and high-altitude conditions.

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

Compatible with different battery brands, 150~750VDC. On-grid and off-grid. 480VAC 3P4W & 240VAC 2P. Optional photovoltaic input, optional backup module. Global power grid certification and ...

It can be used with mainstream brand inverters such as Deye, and is compatible with three-phase four-wire power grids, meeting the requirements for high reliability and high adaptability energy storage.

It integrates multiple safety protection functions and comes with a stainless steel waterproof cabinet, making it suitable for the humid and dusty environment of greenhouses and extending equipment ...

Installation in collaboration with your installer or reseller, or turnkey delivery by BlauHoff. Discover the subsidy options here. The BlauHoff Maxus battery is equipped with prismatic cells for the highest ...

Designed to suit Off-Grid, On-Grid and Micro-Grid applications, the Escape20 Series is scalable from 28.8kW - 65.8kWh right through to 1.8MW and MWH capacities in single, dual and three phase ...

All in one 3 Phase outdoor battery and inverter cabinet - 50kW/100kWh Versatile option to bulky battery container units Safe and reliable operation CATL LFP battery cells Double fire suppression system ...
