The 3S 10A Li-ion 18650 Charger Protection Board Module is a compact and efficient circuit designed to manage the charging and discharging of three 18650 lithium-ion cells connected in series.

In 3S 10A 12V 18650 Lithium Battery Charger Board Protection Module, 3S stands for 3 18650 batteries or polymer lithium battery series combination. With 10.8V rated voltage for polymer battery, 11.1V ...

Explore our collection of three-series 10a solar battery cabinet lithium battery pack to find the perfect solution and get back to adventuring!

Welcome to Electronexus ?? In this video, we will show you step by step how to build a 12V Lithium-ion Battery Pack using: 3 × 3.7V Lithium-ion Cells (18650) 3S 10A Battery...

This 3S 10A BMS module is designed for managing and protecting 3-cell (3S) 12V Li-ion or LiPo battery packs, commonly used in e-bikes, solar lights, DIY power banks, and portable electronics.

Li-ion 3S 12V 10A Lithium Battery Protection Board with balance PCM BMS. We can customize any BMS from 3S to 48S lithium batteries with current 15A to 500A.

Protect your lithium-ion batteries with this all-in-one 3S 12V 10A BMS module. Featuring overcharge, over-discharge, over-current, and short-circuit protection, this board ensures the safety ...

HX-3S-01 is small size, suitable for many requirements of high integration, low cost of the occasion, to meet a wide range of performance requirements to ensure that the battery pack is absolutely safe ...
