For financial benefit. Connecting your solar PV system to the grid allows you to take advantage of the FIT, which gives you a fixed amount of money for each kWh of electricity you generate. On top of ...

Construction of a utility-scale solar-plus-storage project is now underway in northern Togo. The 25 MW Dapong solar project will include 36,000 solar panels across 52 hectares, along ...

Solar energy developers having an option to tender for an engineering, procurement and construction (EPC) contract for the 390MWp solar energy plant. Whilst energy storage companies ...

WAPCOS signs deal with AT2ER to develop 25 MWp solar plant with 36 MWh battery storage in Togo, boosting rural electrification and clean energy.

Battery energy storage (BESS) will help stabilize the national grid and offset the intermittency of solar power, which is often supplemented by thermal sources or regional imports in ...

Renewable energy project developer AMEA Power confirmed that they recently signed a power purchase agreement (PPA) and concession agreement with La Compagnie Energie Electrique ...

The Dapaong Solar Power Station is a 25 MWp ground-mounted solar photovoltaic power plant equipped with a 36 MWh battery energy storage system, located in Dapaong in Togo's northern ...

Our solutions range from commercial BESS and solar generators to solar 3 - in - 1 kits, solar cooling and solar lighting, reinforcing resilient, modern energy networks throughout Togo.
