Whether retrofitting existing infrastructure or building a decentralized energy network, this cabinet empowers businesses to cut costs, enhance sustainability, and ensure uninterrupted power.

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

Product Features: Standardized structure design, menu-type function configuration, photovoltaic charging module, a parallel off-grid switching module, power frequency transformer, and other ...

A compact, high - efficiency microgrid outdoor cabinet for small - scale power management. Equipped with intelligent dehumidification to prevent condensation, it supports 100% unbalanced three - phase ...

Outdoor Cabinet Air Cooling Energy Storage System Leoch commercial and industrial energy storage system helps enterprises to store electricity in the trough and discharge it in the peak, ...

This advanced battery energy storage system is built with robust industrial housing, offering exceptional durability and protection. Designed to endure harsh weather conditions, it ensures reliable ...

Meanwhile, harmonic governance, reactive compensation, and three-phase imbalance governance are integrated to realize peak-load shifting and peak load and frequency modulation.

Explore the eSpire Mini: a turnkey energy storage solution for microgrid, backup, and off-grid applications in residential or C& I projects.
