On 28 September 2025 elections were held in Moldova, with the ruling PAS holding onto power. Thus, Moldova began to buy more expensive electricity from Romania, while Transnistria remained without ...

Recent Russian strikes on Ukraine's electricity network caused massive power disruptions in neighboring Moldova. Why was this the case and how can the country better protect ...

The energy crisis in Transnistria has reached its peak. Rejection of alternative solutions and dependence on Russian gas have led to a critical situation in the region.

The Moldavskaya GRES (MGRES) power plant in Transnistria, previously fuelled by gas, switched to coal and drastically reduced its electricity output. As a result, the power grid operator had ...

And now, with energy and water expenses doubling across Transnistria, the pressure on households is mounting. Families already struggling to cover the basics are now forced into impossible choices: ...

You've probably never thought about Transnistria's electricity grid. But this breakaway region between Moldova and Ukraine is quietly becoming a laboratory for renewable energy storage ...

The breakaway republic of Transnistria has been plunged into an energy crisis following the end of Ukrainian transit of Russian gas. If it is Kyiv and not Moscow that comes to the ...

Transnistrian officials have declared a state of emergency. They say their region is facing "not only an energy crisis, but a humanitarian one." Analysts say this understates the problem, which...
