Rent 500 kW/250 kWh Battery Energy Storage System, a greener and efficient solution designed to optimise costs and reduce emissions across the Middle East.

If power is stored not only for short, but over longer periods, power-to-heat and power-to-gas systems are available. They convert excess power to heat and into storable hydrogen and methane.

In a remarkable advancement for renewable energy, the United Arab Emirates, under the auspices of His Highness Sheikh Mohamed bin Zayed Al Nahyan, President of the UAE, has ...

MKC Group of Companies is an official partner in energy storage devices built on CATL battery systems -- a world leader in the production of lithium energy sources for electric transport and energy.

Suitable for scenario applications such as energy storage. Maximum support for 16 single battery voltage monitoring. Support up to 16 channels of NTC temperature monitoring. Support 1-way ...

Compact wall-mounted units designed for homes, available in 48V/51.2V with 2.5kWh, 5kWh, or 10kWh capacities, offering safe and efficient energy backup. Flexible, stackable packs for residential or small ...

Designed with sustainability in mind, these units are suitable for noise-sensitive locations, dramatically reducing fuel consumption and CO2 emissions during operation.

It offers max 500kW power capacity and supports max 4 sets of 215kWh IBS215K1KC battery cube access to achieve max 860kWh battery energy capacity. Max 4 sets can work in parallel to reach ...
