How many new solar farms are there in Victoria?

Six new solar farm projects totalling 623 MW of renewable capacity and four big batteries delivering up to 365 MW and 600 MWh of new energy storage have been given the tick of approval by the Victorian government as it looks to meet its target of powering all its operations with clean energy by 2025.

What is Victoria's largest solar farm?

Construction is set to begin on the Hazelwood North Solar Farm--soon to be Victoria's largest--after receiving recent planning approval from the state government. The massive project includes a 450-MW solar farm and a 450-MW, four-hour battery energy storage system capable of storing 1,800 MWh of clean energy.

Which solar projects have been successful in Victoria?

Other successful projects include the 95 MW Derby Solar Project and co-located 85 MW/100 MWh big battery being developed by Sungrow Renewable Energy in the state's central north, and Octopus Investments' 80 MW Fulham Solar Farm and 80 MW/100 MWh DC-coupled battery being developed in eastern Victoria.

Will a 450 megawatt solar farm be built in Victoria?

Victoria's state planning minister Sonya Kilkenny said on Wednesday that the Hazelwood North Solar Farm had been granted planning permit approval for a 450 megawatt capacity solar farm that will power approximately 150,000 homes and prevent 700,000 tonnes of emissions.

Victoria's (VIC) clean energy ambitions have taken a major step forward, with the state's biggest solar farm now feeding power into the grid. The 250-megawatt Goorambat East Solar Farm near Benalla ...

Supporting development of well sited, well designed solar energy generation facilities in Victoria, reducing emissions, creating jobs and putting downward pressure on energy prices while meeting ...

Six new solar farm projects totalling 623 MW of renewable capacity and four big batteries delivering up to 365 MW and 600 MWh of new energy storage have been given the tick of approval ...

A massive landowner-led solar farm proposed for Victorian coal country has been given the green light by the state planning department, paving the way for construction of what will be the ...

A solar farm and big battery proposed for development north of Geelong has been fast-tracked for state approval after being named as a winner in the federal Capacity Investment Scheme.

Numurkah is a 128 MW solar farm located approximately 6km south of Numurkah in Victoria. It supplies approximately 255,000 megawatt hours (MWh) of clean renewable electricity into the national ...

The completion of the Girgarre Solar Farm Victoria, a \$140 million renewable energy project in the heart of the state, is a major step forward in Australia's clean energy transition.

Victoria greenlights the \$651M Hazelwood North Solar Farm. Learn how this massive solar and battery project will create 500 jobs and power 150,000 homes.
