Can Victoria achieve EV adoption?

The Victoria region has made remarkable progress on electric vehicle (EV) adoption to date, with the highest percentage of EV sales anywhere in Canada. However, significant barriers stand in the way of achieving the City's bold target. Over 80% of Victorians live in multi-family homes.

What is the business case for owning an EV in Victoria?

The business case for owning an EV is more challenging in Victoria than in other jurisdictions. Although electric vehicles currently cost more upfront than internal combustion engine vehicles, electric vehicles often have lower total cost of vehicle ownership due to reduced operations and maintenance costs.

How difficult is EV in Victoria?

EV is more challenging in Victoria than in other jurisdictions. Although electric vehicles currently cost more upfront than internal combustion engine vehicles, electric vehicles often have lower total cost of v
