Longi Solar is dedicated to meeting and driving demand for value-based, high efficiency monocrystalline solar panels. They were the first to develop M1, M2, mono wafers and one of their P ...

LONGi module product model comparison to help you quickly make product selections.

What solar panel modules does LONGi offer? LONGi offers four main module series, the Hi-MO 7, Hi-MO X6, Hi-MO 5, and Hi-MO 5m, but only the Hi-MO 5m Series offers panels for residential use.

LONGi launched its mono-PERC modules in 2016, featuring integrated PERC technology on monocrystalline silicon and low light degradation, and its cell efficiency has increased from 21% to ...

Embrace the power of solar energy with LONGi, the global leader in monocrystalline solar panels. Discover their range of high-performing products.

Longi's monocrystalline PERC technology enables their panels to achieve exceptional efficiency levels. With high conversion rates, Longi solar panels can generate more electricity from ...

What do L, M and H, as well as the current classification mean? LMH represents the current classification, where L represents low current level, M represents medium current level, and H ...

LONGi Solar is a leading manufacturer of solar panels and photovoltaic solutions, founded in China in 2000. Its specialties include the production of PERC (Passivated Emitter and Rear Cell) ...
