Learn about LZY's cutting-edge products, from mobile solar PV containers, photovoltaic glass, and BESS power conversion systems.

Driven by photovoltaic technology, solar reefer containers offer an eco-friendly alternative to conventional diesel powered units. By harnessing solar power, they significantly reduce carbon ...

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of supporting diverse energy needs.

Introducing our cutting-edge solution for sustainable energy production: the Mobile Solar Container Portable PV Power Stations. Available in both 20ft and 40ft variants, these innovative containers are ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The Mobil-Grid <sup>®</sup> is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries.

Many customers explore off grid solutions due to the simplicity and maneuverability of our containers. As long as a truck can get to the plot of land, we can drop your container. Now you have the option to go ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.
