Solar energy in the United States is booming. Along with our partners at Wood Mackenzie Power & Renewables, SEIA tracks trends and trajectories in the solar industry that demonstrate the diverse ...

Each year, Wood Mackenzie answers this question with an analysis of the 40 largest solar panel brands across 10 countries. These companies alone account for 62% of global ...

Summary: Explore the evolving landscape of photovoltaic panel sales, including key market drivers, innovative sales strategies, and actionable data for manufacturers.

Despite last year's difficulties, the industry remains resilient and optimistic. 54% of installers expect to sell more solar in 2024, and 35% of companies expect to grow in the coming year.

Falling solar panel costs, ongoing technological advancements, and higher efficiency levels are driving adoption across residential, commercial, industrial, and utility-scale sectors.
