How to hire workers for your solar panel manufacturing company?

If you want to hire workers for your solar panel manufacturing company, you must ensure that you hire well trained and competent ones. When hiring, you should look for people that can pay attention to details, and those that can work long hours.

Should you choose a small Solar Installer?

O'Meara notes that with many large installers, consumers have no say as to what type of panel is purchased or how the system is installed. If a homeowner envisions being part of the design, purchase, and installation of the solar system and its components, a smaller installer is ideal. Your solar set up doesn't need special configurations/panels.
